On Saturday, June 20, 2015, Riverside County Probation Officers assigned to the Sexual Assault Felony Enforcement (SAFE) Team and Post Release Accountability and Compliance Team (PACT) conducted a series of compliance checks on registered sex offenders who are currently under the supervision of the Riverside County Probation Department. Those checks occurred in the cities of Temecula, Murrieta and San Jacinto. Offenders were contacted to ensure they are in fact living at the addresses where they have registered, are not in possession of pornographic or inappropriate material and are in compliance with their court ordered conditions of probation. These contacts are part of an overall strategy of treatment, rehabilitation and enforcement designed to reduce recidivism and enhance public safety. In all, the operation resulted in 10 attempted searches, with 6 actual probation searches and one parole search completed. The operation concluded with two arrests, one for violation of probation and one for a parole violation.
