606.1 PURPOSE AND SCOPE

The purpose of this policy is to set forth guidelines and procedures for establishing a record of case contacts in the Juvenile Adult Management System (JAMS). This policy applies to all designated personnel.

606.2 AUTHORITY AND REFERENCES

- Executive Committee;
- California Penal Code § 7521 (c).

606.3 POLICY

A chronological record of contacts made by personnel shall be entered within JAMS, regarding all probation-related matters, on a continuing and timely basis. Entries shall be reviewed by the unit supervisor in accordance with Policy 624 Case Audit.

606.4 PROCEDURE

- (a) Whenever an action is taken or information is received regarding a probation-related matter, a record shall be entered in JAMS. All contacts shall be recorded the same day of their occurrence, when possible. If the contact is unable to be recorded the same day, it shall be entered by the end of the next business day.
- (b) As with any record, contacts are subject to examination by the court or as allowed under the law. The entries shall be concise as well as professional in manner and content. Personnel should refrain from using abbreviations and acronyms, as they can be vague and easily misinterpreted. While opinions and observations may be valid and pertinent, they shall be distinguished from facts.
- (c) Information indicating that an adult/youth is working as a confidential informant or has any of the following communicable diseases: AIDS, Hepatitis B or C shall not be entered in JAMS.
- (d) Personnel's performance should not be addressed in JAMS contacts. Content relative to results of a case audit, details of a complaint or any personnel-related matters shall not be included in JAMS.
